Alexander Liss

Denver, CO | (718) 607-7513 | aliss77777@gmail.com | linkedin.com/in/aliss77777 | aliss77777.github.io

PROFESSIONAL SUMMARY

AI transformation leader with 15+ years of experience in data, analytics, and AI at Fortune 100 scale, working directly with C-level stakeholders. Led engagements in Media, Retail, and Telecom companies, applying data enablement, machine learning and GenAI to drive $6–25M impact. Managed 5-15 direct reports and overseen department-wide initiatives across multi-year roadmaps. Published thought leader on AI in business and customer experience in AI Engineer World's Fair, Ad Age, and arXiv.

KEY ACCOMPLISHMENTS

- Partnered with multiple CMOs to deploy GenAI experiences through data enablement and observability. 7x conversion lift and $100K incremental revenue at Party City; 320K sessions at 94% task completion across NBC's Winter Olympics.
- Led multiple data transformations for C-level Fortune 100 leaders, evolving data architecture to provide customer lifecycle analytics driving -54% churn for Verizon, and built ML pipelines for Volkswagen advertising combining behavioral and demographic data, driving +68% digital conversion.
- Pioneered Huge's GEO practice, publishing thought leadership and defining technical measurement standards for AI-driven discovery. Ran customer workshops for rapid experimentation, +100% organic search conversion rate for Highstreet Insurance.
- Built delivery capability from the SI side of partner ecosystems, with platforms including Google Cloud, Sitecore, Optimizely, IBM, and Snowflake. Scaled teams of 5-15 across analytics, data science, and engineering.
- Created regional and global centers of excellence for workflow transformation leveraging explainable ML and GenAI. Led 9 customers in a Google Cloud Hackathon driving 88% reduction in development time and +23% brand lift for Pfizer.

WORK EXPERIENCE

BrainWorks • Denver, CO • Executive Advisor, AI Transformation (Contract) July 2026 – Present

Responsibilities:

- Partnering closely with C-level leaders to develop AI vision, strategy, implementation plan, and learning agenda.

Huge • New York, NY (Remote) • VP of Data Science & AI 2024 – May 2026

Responsibilities:

- Led data and AI transformation strategy across data science, engineering, product, and content; overseeing cloud data platform architecture covering 2B+ records across composable agentic workflows.

Accomplishments:

- Created and executed Vail Resorts GEO strategy, working with the CRO. Transformed digital properties, search schema, and Databricks data orchestrations to evolve from transactional to lifecycle data strategy.

22squared • Atlanta, GA (Remote) • Director of Data Science & Analytics 2022 – 2024

Responsibilities:

- Served as senior data strategy and governance lead across lines of business, organizing a C-level AI council to define GenAI policy and data clean room frameworks, and authoring POVs on emerging technology adoption.

Accomplishments:

- Applied ML to optimize delivery of $75M media budget for Party City and Grammarly; reduced CPA 15% through audience and channel-level optimization, leading analysts and engineers to socialize and implement data model evolution.

VML • New York, NY • VP of Data Science & Analytics 2018 – 2021

Responsibilities:

- Designed and scaled ML platform capabilities across the enterprise data stack, through GCP and Snowflake, implementing MLOps workflows from model development through production deployment.

Accomplishments:

- Secured executive buy-in and led data transformation for 3.3M electric utility customers for conEdison; built a customer 360 data infrastructure delivering $6M in cost savings and +83% data retention.

PROFESSIONAL EXPERIENCE, CONTINUED

Momentum Worldwide • New York, NY • VP of Data Science & Analytics 2015 – 2018

Responsibilities:

- Evolved analytics from reporting to data science and engineering, building enterprise customer analytics programs using identity resolution and behavioral modeling. Built strategic partnerships with IBM and IPG Mediabrands to extend delivery capability beyond internal teams.

Accomplishments:

- Led customer analytics for Verizon's sponsorship program; demonstrated -54% churn by connecting experimentation data to behavioral outcomes, optimizing sponsorship experience design against real retention signals.

Avanade • New York, NY • Director of Digital Analytics 2014 – 2015

Accomplishments:

- Led data strategy and analytics implementation for Merck Manuals redesign using Sitecore personalization and behavioral analytics, improving audience engagement 27%.

Accenture Song (Droga5) • New York, NY • Senior Data Strategist 2013 – 2014

Accomplishments:

- Led real-time social analytics and optimization for Mondelez brands HoneyMaid and Belvita; produced +111% reach and +71% reply rate, driving +25% retail sales through signal-driven closed-loop optimization at campaign scale.

The Brand Union • New York, NY • Strategist, Brand & Customer Experience 2010 – 2013

Accomplishments:

- Developed behavioral segmentation model for Shazam's Super Bowl launch — improving user retention 34% through data-driven audience activation.

TECHNICAL SKILLS

Platform, Cloud & MLOps

- Cloud & Infrastructure: Databricks, ML Flow, Spark, GCP, Apache Beam, AWS, Snowflake, Docker, Kubernetes.
- Data Pipelines: dbt, Fivetran, Databricks Unity Catalog, Great Expectations, dbt data contracts.
- Business Intelligence: Tableau, Looker, Power BI.

AI, Agentic & Evaluation

- Agentic AI & Orchestration: LangGraph, LangFlow, AutoGen, CrewAI, OpenAI Agents SDK.
- Evaluation & Safety: Rubric-based LLM grading, LLM-as-Judge, automated red-teaming, reward hacking detection.
- Languages & Frameworks: Python (PyTorch, NumPy, NetworkX, SpaCy), R, SQL.

Digital Experience & MarTech

- Digital Experience Platforms: Optimizely (Opal certified), Adobe Experience Cloud, Sitecore, Contentstack, Google Analytics, Mixpanel, Amplitude.
- CRM, CDP & Automation: Salesforce, Segment, HubSpot, Marketo.

EDUCATION

MS, Computer Science (AI Specialization): Georgia Institute of Technology, 2025 – 2028 (in progress)

- "Dynamic Governance of Multi-Agent Systems", https://arxiv.org/abs/2608.11207

MBA, Data Science & Analytics: New York University, Stern School of Business, 2011–2014

BA, Japanese: George Washington University
